

Online Event

Biocircular Economy in the Euregion

Agropole, CLIB and LIOF are organizing the 2nd online event on Biocircular Economy in the Euregion. A biocircular economy focusses on the use of raw materials and other materials in a way that prevents the creation of waste. Raw materials and products form a closed cycle and are used and reused optimally. With the aid of new technology, residual flows are processed to create unique, valuable raw materials, semi-finished and finished goods.

Thursday, December 3, 2020

15:30h – 17:00h

- 15:30h **Start of the event**
